Phenology and Seasonality of Woody Plants: The Effects of Climate Change
A symposium held at the 15th International Botanical Congress, Yokohama, Japan, August 1993
(Un symposium tenu lors du 15e Congrès international de botanique, Yokohama, Japon, août 1993)

Martin J. Lechowicz and Takayoshi Koike Introduction / Introduction d'ouverture: Phenology and seasonality of woody plants: An unappreciated element in global change research? 147

Takayoshi Koike Effects of CO_2 in interaction with temperature and soil fertility on the foliar phenology of alder, birch, and maple seedlings 149

K. Kikuzawa Leaf phenology as an optimal strategy for carbon gain in plants 158

P.B. Reich Phenology of tropical forests: patterns, causes, and consequences 164

Martin J. Lechowicz Seasonality of flowering and fruiting in temperate forest trees 175

Heikki Hänninen Effects of climatic change on trees from cool and temperate regions: an ecophysiological approach to modelling of bud burst phenology 183
